The colorist is responsible for the critical final stage of refinement of the film and broadcast image. Using all of the controls modern color correction software provides, colorists refine the mood, create style, add polish to scenes, and breathe life into the visuals.

Color Correction Handbook: Professional Techniques for ...

At one time (not so very long ago) color correction was the description given to color work on video, while grading was the term applied to the process of color timing motion-picture film. As the tools for both film and video have merged, times have changed, and now the terms have become suspiciously interchangeable.
