It covers a huge range of mathematical concepts, so they're great for revision in the exam period, or making tricky concepts a bit more creative and fun! You could see what your pupils might need help working on, and give them a relevant investigation to help them improve. These fun maths investigations for Year 6 children are ...

Paper Spinners Investigation Ks2

I was so surprised at how well these easy paper spinners (or paper helicopters) worked, they take less than two minutes to put together, spin amazingly well and inspire some great investigations. They are also part of my Tray a Day series, so do follow along on the Science Sparks Facebook page.. I've also got lots more easy paper science challenges you might like to try.

The Paper Helicopter Investigation - YouTube

Print out the paper helicopters. Printing on colorful paper is always fun. large-helicopter-printable small-helicopter-printable It is fun to experiment with both sizes; we especially recommend the larger size for the younger scientists. Cut along the SOLID lines. Fold along the DASHED lines. Fold flaps C and D inward, then fold the bottom up; this will create a handle of sorts.

Make a Paper Helicopter - Experiment Exchange

What are KS2 SATs Papers? KS2 SATs papers (or Key Stage 2 SATs Papers) are formal exams, taken by children in Year 6. As such, plenty of people refer to them as Key Stage 2 SATs, Key Stage 2 Tests, Year 6 SATs papers or simply Year 6 SATs.. KS2 SATs are mandatory tests written by the Standards and Testing Agency (STA) as part of the Department for Education's national curriculum assessment ...

Science of Flight

This paper helicopter template will help children understand some basic principles of physics in an engaging, practical, and interactive way. This resource is also a great introduction to the main elements of any successful science experiment. The easy-to-follow instructions will allow students to create a paper helicopter on their own, in pairs, or in small groups. Use this template ...

Flying High - HHJS Science Week 2013

David Aston leads his year 5/6 class in a investigation into what makes a really effective paper helicopter. Pupils form small design teams to create their h...

KS2 Year 6 SATs Papers

This is similar to the previous falling paper shapes investigation; this time though, the paper is kept flat and made into rectangles of different dimensions but with identical area. The children take a piece of A3 paper and measure and cut out 3 rectangles - one long and thin (1 x 40cm), one short and fat (4 x 10cm) and one in between (2 x ...

Paper Spinners Hold the spinner with the paperclip end down and drop What happens if you add more paper clips? Who can make the spinner that falls the most slowly? How can you make your experiment a fair test? Gravity makes an object fall to the ground. Air Resistance slows the fall of an object.

Paper Spinners - Science Sparks

This resource, aimed at primary level, links to the topic of forces. Students use a template to make paper spinners, and then investigate how fast they fall when different variables such as length of rotor blade, type of paper or number of paper clips are changed. The resource contains notes on running the activity, background knowledge and ideas for further activities.

Investigating Paper Helicopters | Teaching Resources

In the Spinning Blimp, air pushes up on the flat sides of the strip of paper. When the flat side of the paper strip is parallel to the ground, the blimp drifts down like a flat piece of paper. But if the blimp tilts so that the flat side of the strip is at an angle to the ground, the paper strip gets a sideways push, just like the blade of the copter, sending the blimp spinning.
