Record keeping and management planning

Some animal diseases and parasites are transferable to humans (zoonoses) so it is important that those handling dogs practice good personal hygiene. Dogs can appear quite resilient to pain and may just go quiet or hide as a response to injury or disease. This does not mean that they are not in pain or injured.

Beekeeping - Wikipedia

The microenvironment of an animal is the physical environment immediately surrounding it—the primary enclosure with its own temperature, humidity, and gaseous and particulate composition of the air. The physical environment of the secondary enclosure—such as a room, a barn, or an outdoor habitat—constitutes the macroenvironment. Although the microenvironment and the macro-environment are ...

Sheep and goats: on-farm welfare - GOV.UK

Animal husbandry is the branch of agriculture concerned with animals that are raised for meat, fibre, milk, eggs, or other products. It includes day-to-day care, selective breeding and the raising of livestock. Husbandry has a long history, starting with the Neolithic revolution when animals were first domesticated, from around 13,000 BC onwards, antedating farming of the first crops.
