(PDF) Foucault, Subjectivity, and Technologies of the Self ...

The psychodynamic theory of the self, represented by Freud, was one of the first psychological theories that sought to understand the concept. Freud found that the self was constituted of three different personality structures: the id, the ego, the superego respectively (this video here illustrates it).

Really good introduction to philosophical theories of the self. Well written and easy to understand - a good place to start when trying to wrap your head around the many different theories of subjectivity. A relatively short book on a vast area of knowledge.

Merleau-Ponty: The Self as Embodied Subjectivity - Video ...

A subject is a being who has a unique consciousness and/or unique personal experiences, or an entity that has a relationship with another entity that exists outside itself. A subject is an observer and an object is a thing observed. This concept is especially important in Continental philosophy, where 'the subject' is a central term in debates over the nature of the self. The nature of the subject is also central in debates over the nature of subjective experience within the Anglo-American tradi
