Wales (verouderd Nederlands: Wallis of Kymrië, Welsh: Cymru, Latijn: Cambria) maakt als constituerend land met Engeland, Noord-Ierland en Schotland deel uit van het Verenigd Koninkrijk. Wales ligt in het westen van het eiland Groot-Brittannië en grenst in het oosten aan Engeland. Wales kent een eigen taal, een eigen vlag en beperkt binnenlands bestuur, maar in de internationale betrekkingen ...

Gray whales have a hump and a ridge of sharp bumps along their backs, instead of a dorsal fin. They are a type of baleen whale, which means they filter food from the water through special bristly structures in their mouths.

### **Whales**

Whales are a widely distributed and diverse group of fully aquatic placental marine mammals. They are an informal grouping within the infraorder Cetacea, usually excluding dolphins and porpoises. Whales, dolphins and porpoises belong to the order Cetartiodactyla, which consists of even-toed ungulates. Their closest living relatives are the hippopotamuses,

### **Whale - Simple English Wikipedia, the free encyclopedia**

Whaling is the hunting of whales for their usable products such as meat and blubber, which can be turned into a type of oil which became increasingly important in the Industrial Revolution. It was practiced as an organized industry as early as 875 AD. By the 16th century, it had risen to be the principal industry in the coastal regions of Spain and France.

Sperm whales are toothed whales rather than filter feeders and are the deepest and longest of all whale divers catching giant squid in the dark ocean depths. Unlike baleen whales, which form only temporary bonds, sperm whales live in extended family units that for the females are lifelong associations.

### **Whale Watching Hauganes in North Iceland | Whale Watching ...**

Whales are mammals in the order Cetacea, and are grouped into two suborders: whales with teeth and a single blowhole (Odontocetes) and whales with baleen and two blowholes (Mysticetes). Toothed whales include dolphins, porpoises, belugas, narwhals, sperm whales, river dolphins, and beaked whales.
